

A hand made by me, unique, one of a kind needle felted portrait. This portrait is made using a technique called Needle Felting. I use wool as my paint. I use a special barbed needle to stab the wool onto the background material. This process takes many hours. I use a photograph of your pet to make a realistic copy of your pet. You can choose the background material colour and fabric, from either wool felt or linen/cotton.

Prices are as follows for other sizes
